Subject: Re: Media Inquiry for review and approval

#2

Is it more accurate to say the ITC, TCEQ and EPA are all testing the water and will work with U.S. Coast Guard and NOAA to determine the impacts on waterways.

Q: does EPA have a plan for where to lay boom in ship channel?

A. The Coast Guard is coordinating with ITC for addressing waterways.

Q: Does EPA know how the chemicals disperse in water?

A: Our water samples are being reviewed by our lab. When we have quality assured data, we will share it with the public. We post it on our EPA website at response.epa.gov/ITCTankFire.

Q: Any evidence of fish kill?

A. Fish and Wildlife has had no reports or incidents.
